About the Seminar

Intellectual property rights (IPRs) refer to the legal rights granted to individuals or entities for their creations or innovations. These rights enable inventors, creators, and innovators to protect and benefit from their work, thereby encouraging further innovation and creativity. IPRs provide a framework for safeguarding various forms of intellectual property, including trademarks, copyrights, patents, and trade secrets.

In India, the primary legislation governing intellectual property rights includes:

1. **The Copyright Act, 1957:** This Act safeguards original literary, dramatic, musical, and artistic creations, including books, songs, movies, paintings, etc.
2. **The Patents Act, 1970:** This Act grants exclusive rights to inventors for their inventions to prevent others from using, making, or selling the patented products or processes.

3. The Trademarks Act, 1999: This Act provides protection to distinct marks that distinguish goods or services of one enterprise from another.

4. The Designs Act, 2000: This Act empowers creators to protect the visual appearance of a product or its design features.

The need for intellectual property rights stems from several reasons:

1. Encouragement of Innovation and Creativity: IPRs motivate individuals and companies to invest time, effort, and resources in developing new ideas, inventions, and creative works, as they can reap the exclusive benefits and rewards associated with their creations.

2. Economic Growth and Competitiveness: IPRs promote economic growth by fostering entrepreneurship, attracting investments, and stimulating research and development activities. They encourage competition and positively impact industries such as pharmaceuticals, technology, music, and entertainment.

3. Protection of Inventors' and Creators' Rights: IPRs ensure that inventors, creators, and innovators have control over their works, inventions, or brands. They prevent unauthorized use, copying, or exploitation by others, protecting the interests and reputation of the creators.

4. Consumer Protection: IPRs facilitate consumers in identifying genuine, reliable products or services by associating them with specific trademarks, copyrights, or patents. This creates trust in the market and safeguards against imitation or counterfeit goods.

It is important to note that the jurisdiction of the court will vary depending on the specific Act and the nature of the dispute. For instance, copyright disputes are generally heard by the District Courts or the High Courts, while patent disputes are dealt with by the Intellectual Property Appellate Board (IPAB) and the High Court.

REPORT

Next Prof. Dhat discussed the major issues faced by Rajasthan and North-Karnataka, such as cyber bullying, domestic violence and child marriages. Cyber bullying is becoming rampant on social media platforms, there should be legal awareness especially among women regarding the use of social media, and sharing personal photographs on social media platforms. Domestic Violence is an important social and legal aspect between the age-group of 20-40 years. The main sociological factors are fear of divorce, impact on child psychology and awareness on behavioural change. The Protection Officers play a crucial role bringing awareness to the public/legal and the legal facet of domestic violence. Prof. Dhat invited upon the others to revive Legal Aid clinic.

Mr. Vikas Gaurav discussed the Consumer Protection Act. He emphasised that it is a key legislation relating to day to day life of every common man and the growth of apps like Swiggy and Zomato and others. He highlighted that Consumer Awareness should be at the forefront in today's technological and legal advancement. Citing an example of online food portals, he asserted the necessity to bring in consumer awareness especially in young generation, who have access to smart phones, regarding food safety standards, kitchen safety standards, plastic packaging and food grade quality in street kitchens. There is a prominence of legal awareness in the field of consumer rights in trading sector.

Summary of the Workshop

SUMMARY OF THE PROCEEDINGS

The One-Day Workshop on Legal Literacy and Legal Awareness was organised under the aegis of the Department of Justice, Ministry of Law and Justice, Government of India in association with Seth Chandra Amarendra Bhat Law College, Raichur and Centre for Environmental Law, Education, Research and Advocacy (CELERA), National Law School of India University (NLSIU), Bangalore on 20th March 2022.

SECTION I – INAUGURATION

The Inaugural Speech was delivered by Prof. (Dr.) Sairam Bhat, Professor of Law & Coordinator, CELERA-NLSIU. In his Inaugural speech, Prof. Bhat emphasised the need and importance of legal literacy and legal awareness campaigns in Raichur which is identified as one of the backward district in Karnataka for the Legal Literacy and Legal Awareness Program (LLAP). He highlighted the most vital social and legal issues such as child marriage, cyber-bullying and women safety, social media,

responsibility in digital age. Prof. Bhat further underscored the importance of legal awareness and legal literacy dissemination in such districts to inspire law students and lawyers in this campaign of nation building and inculcating social responsibility. He discussed the initiatives of CEEPA under the Project and the launch of CEEPA Pro Bono Assistance helpline number.

The key note address was delivered by Sri Mahadevappa G.K., in-charge Principal District & Sessions Judge, Raichur. Highlighting importance of legal education, Sri Mahadevappa stated that it is necessary to train the young minds during the college days and to make best use of legal literacy

programs during the college days. He highlighted that it is very pertinent to train the students for social cause, practical importance and accepted methods of legal principles, court practice and legal implementations.

In his speech, Sri Mahadevappa shared valuable insights on pending cases in courts and underscored the need for speedy disposal of cases. It is well known fact that the number of judges has to be proportional to the population. Hence, there is a pertinent need to increase the ratio of Judges in India. Citing the example of the Court in Raichur, He stated that the First Division Magistrate Court has around 5000 pending cases which includes cases under the POGSD Act, SC-ST atrocities cases, land acquisition, Arbitration, Motor vehicles along with civil criminal appeals and section trials. Even though the Special Courts are highly required to take cognizance of case within 30 days, take evidence on a day to day basis, and dispose of the case within a year, that is not the reality. He stated that the reasons for delay in court matters are many, One such being the supporting system from Police Department is inadequate. With the online and virtual hearing of evidences getting prominent the matters can be disposed in a speedy manner. He emphasized that in cases of POGSD and JJ Act, the virtual hearing and recording of evidence is a sensitive matter therefore in camera hearing shall be continued. Legal awareness should be disseminated.

regarding the misuse of online virtual hearing, recording through mobile phones which is punishable offence.

He also underscored the significance of NCC, NSS in legal literacy and it can be an important aspect in the student training program. The legal aid campaign needs to be strengthened in order to enable the speedy and efficient disposal of cases.

The next address was delivered by Chief Guest **Shri. Madhvi Nagara**, General Secretary, Tarunika Shiksha Kendra, Raichur. He was assertive in the statement that legal literacy campaigns should also include training on criminal investigations to prevent it in the court of law. As an example he said that in the matters of NCRP the investigation is so

vital and crucial to the case in the courts and to prove the nexus between the offence and the accused. Legal awareness is very necessary for being a practical knowledge and experience. He also emphasized the social responsibility of lawyers and educating the common people about the practices of child marriage and the need for the compulsory education.

SESSION 2 – Technical Session

The Technical Session was taken by Prof. (Dr.) **Balaram Bhat**, Professor of Law & Coordinator, CEERA-NU,SOU & Mr. **Vikram Gattot**, Teaching Associate, CEERA-NU,SOU. Prof. Bhat addressed the importance of Research as an aspirational domain. He also emphasized the need for

mass grass root level out reach through DCU legal awareness program through the Classroom and practical lawyering experimental Lab. He asserted the use of social identity of a lawyer for societal responsibility.
